QUALITY POLICY

With its customer-oriented approach; Our aim is to increase productivity by supporting innovative and creative thinking, to ensure continuous improvement and development. While doing all this; We undertake to comply with national and international standards and legal regulations.

ENVIRONMENTAL POLICY

In order to transfer the environment, which is their trust to future generations, in a healthy way; We are committed to adopting, implementing and complying with sustainable development. While planning and implementing all our activities; It is our principle to monitor and evaluate the environmental impacts, to continuously improve them, to use our inputs effectively and efficiently, and to reduce waste at its source.

HEALTH AND SAFETY POLICY

OUR COMPANY IS ESSENTIAL TO COMPLY WITH THE LAWS AND 2. REGULATIONS;

We undertake to comply with the current OHS laws and regulations and the conditions of the organizations we are a member of, with the participation of our employees.

OUR MANAGERS and EMPLOYEES ARE RESPONSIBLE FOR OHS;

Necessary trainings will be provided for our employees to be aware of their individual OHS responsibilities, and their awareness will be ensured.

HAZARDS WILL BE DETECTED AND POSSIBLE RISKS AVOID;

We undertake that the necessary resources will be allocated to ensure the detection and control of dangerous and possible risks in our organization, and that a healthy and ergonomic working environment will be provided by conducting studies on the prevention of all kinds of work accidents, injuries and occupational diseases.

OUR OHS PERFORMANCES WILL BE EVALUATED;

With the careful work of all our employees, it is aimed to reduce OCCUPATIONAL ACCIDENTS, INJURY and OCCUPATIONAL DISEASES to "0" zero.

CONTINUOUS IMPROVEMENT IS REQUIRED AT OUR COMPANY'S COMPANY POLICY.

Continuous improvement and development will be ensured in all departments related to OHS.
